

ANSWERS - WDSG-UK 2018 LONDON STATIONS DINGBATS QUIZ

Thank you to everybody who took part in this year's quiz which raised another much appreciated £300 for the Group. It seems to have been challenging, to say the least, with **20** entries submitted but no all-correct answer sheets. Three people tied in first place (**Ken Dunkerley, Gavin Clarke and Nick/Jenny Warburton**) with **39** correct answers and their names were duly put into a hat for the winner to be decided. Our congratulations and the prize of **£25.00** go to **Ken Dunkerley** of Chadderton, Greater Manchester, whose name was drawn, and our commiserations go to the unlucky but equally talented runners up.

The Dingbats which seemed to cause the most problems were **No 1 - Chalk Farm** (choke far *m*), **No. 9 - Blackfriars** (black fliers not necessarily ravens—could be rooks or crows), **No. 19 - Kentish Town** (**Nick & Jenny** were the only people to get this right while everybody else worked out that Sandwich was a place in Kent and couldn't therefore be a London station), **No. 27 - White City** (white settee), **No. 32 - High Barnet** (high bonnet), **No. 38 - Old Street** (Fosse Way simply being a very old street) and **No. 39 - Kilburn** (the dagger being a murder weapon in *Cluedo* which in this quiz kills the hot cross bun!)
